Intelligence Support Systems for Lawful Interception, Criminal Investigations and Intelligence Gathering

Lead Sponsor

trovicor was founded as the VDR (Voice & Data Recording) business unit within the Siemens corporation in 1993. Since then, we have become an industry leader who provides project and turnkey intelligence solutions. These are a combination of own core development and the integration of best-in-class third party products as well as our customer-centric Care Programs. Presently, we employ some 170 experts worldwide. Our office in Munich addresses Europe, the Community of Independent States (CIS) as well as both Americas; our subsidiaries in Dubai and Islamabad cater for the Middle East and Africa; and the Kuala Lumpur office addresses Asia Pacific. Based on our vast experiences, our main business goal always has been to generate sustainable benefits for law enforcement and government agencies. Many and varied Monitoring Center solutions as well as other intelligence projects have given us an indepth experience in their requirements. Today as before, we strive to achieve the highest level of customer satisfaction. www.trovicor.com

AL FAHAD
knowledge for a safer tomorrow

Confidentiality and integrity-of-secrecy are not "givens" in LI, these are values to be exercised and executed in perpetude. The benefit and impact of LI in forming national security strategies supersedes older intelligence gathering forms and mechanisms. These are the principles driving Al Fahad group to provide LI and other national security solutions. We have therefore been recognizing exponential growth over the last 5 years in providing national security solutions ranging from Interception, mediation, comprehensive protocol decoding including webmail and web 2.0 services; evidence processing, forensics, fraud detection, surveillance and cyber intelligence. Across our operations in the

Middle East, North Africa and Europe, Our best practices and accurate assessment of intelligence needs enable us to deploy adaptive solutions, fully integrated end to end, providing Active In-Line control and applied to serve your directive.

AREA is a leading vendor of LI systems and projects. Since 1999, when it introduced its first IP based digital multichannel digital recorder, a broad new products portfolio and international markets were developed. MCR System, the complete voice & data Monitoring Center, is the core element which includes IP Probes and Data Analysis. In addition AREA develops surveillance systems, such as Vehicle Tracking and Video Monitoring. Design and delivery of large scale LI projects come from our commitment to worldwide LEAs satisfaction. www.areamcr.com.

Founded and headquartered in Bad Homburg, Germany, the ATIS Group has 200 employees â€' of which the majority are engineers â€' in five countries across Europe, Asia and North America. Drawing on a long history of success and experience â€' 60 years in recording technology and 15 years in the field of integrated lawful interception â€' ATIS is a key technology partner for both the public and private sectors. www.atis-systems.com.

Elaman provides various solutions for tactical and strategic Communications Monitoring Systems for Telephone, Internet, wireless/cellular/Satellite networks, Radio Frequency and can be the sole supplier, integrator and technical consultant for such systems. Our combination of developments and systems, using best in class products and integrating different systems, enables Elaman, to provide our clients with a unique portfolio of the best services and solutions on the market. For more information visit www.elaman.de.

ERICSSON

Ericsson is shaping the future of Fixed and Mobile Broadband communications through its continuous technology leadership. Providing innovative solutions in more than 175 countries, Ericsson is helping to create the most successful communication companies in the world. Ericsson offers state of the art Data Retention and Lawful Interception Solutions. www.ericsson.com

GAMMA INTERNATIONAL

Gamma International is proud to present its EXCLUSIVE FINFISHER portfolio of IT intrusion tools at the ISS World EMEA Dubai 2009. The FinFisher portfolio is designed to help government agencies remotely access and monitor a target's computer covertly. Basic functionalities include Skype monitoring, chat logging, keystroke recording, and accessing deleted files. FinFisher is highly sensitive and only for sale to authorized government end-users. For more information contact: info@gammagroup.com

]Hacking Team[

HACKING TEAM is a company totally focused on IT OFFENSIVE SECURITY intelligence solutions for LEAs and Security Agencies. Remote Control System V6 (RCS) is a premier, integrated, multi-OS platform for remotely attacking, infecting and controlling target computers and mobile phones. RCS FULLY SUPPORTS XP, Vista, 7, MacOS, iPhone and Symbian - It is INVISIBLE to most protection systems available in the market (e.g., systems listed in the GARTNER's Magic Quadrant For Endpoint Protection Platforms) - It is RESISTANT to system restoration technologies (e.g., DeepFreeze) - It is a PROVEN technology: it is being used by Agencies worldwide since 2003 - Target monitoring includes Skype, chat, mail, web, removable media, encrypted communications, PGP, GSM-cell GEO-tracking, GPS GEO-tracking, voice calls, etc. For more information info@hackingteam.it.

HP delivers a comprehensive portfolio of intelligence support systems (ISS) that meet the requirements for today's converged communications services. Based on technology proven in successful deployments worldwide, HP Investigation solutions are modular and standards-based, and take a fully-integrated, real-time approach to fulfillment of lawful requests for communications data. Together, they comprise a complete, end-to-end offering for request management, lawful intercept, and data retention, providing actionable intelligence for today's global law enforcement efforts.www.hp.com/go/dragon.

Qosmos develops network intelligence technology (an evolution of Deep Packet Inspection), which provides real-time visibility into data as it crosses networks. The companyâ€™s software development kit and hardware probes are used by Government Agencies, Law Enforcement Agencies (LEAs) and System Integrators to enhance their lawful intercept and cyber security solutions. www.qosmos.net

Spectronic Systems is an independent and 100% privately owned company working exclusively with governments and government approved agencies.

It was founded in 1983 as a business unit of Spectronic Denmark A/S and was later acquired by the Cobham Group. Through a management buy-out, Spectronic Systems A/S has taken over all activities previously residing within the systems division of Cobham Surveillance (Spectronic Products).

The Spectronic Systems activities include development and manufacturing of monitoring systems and monitoring centres handling telephony, internet/IP, fax and modem traffic for intelligence and law enforcement agencies.

Spectronic Systems also develops intelligence systems and solutions which are designed to handle - i.e. retrieve, collect, decode, store and present - bulk data. These solutions can act as data retention systems and/or as an intelligence platform for bulk monitoring of SMS, MMS, e-

mails or other means of data communication. www.spectronic.com

SS8 is a leader in communications interception and a worldwide provider of regulatory compliant, electronic intercept and surveillance solutions. Headquartered in the heart of the Silicon Valley in Milpitas, California, SS8 has a global reach and is an independent provider of regulatory-compliant electronic surveillance solutions that have been deployed in over 25 countries for the largest wire-line, wireless, cable, VoIP and satellite service providers. These voice and data installations can intercept more than 100 million subscribers, and serve local, regional and national law enforcement and intelligence agencies worldwide. SS8 products are sold and supported both directly and through OEM partnerships. www.ss8.com

Telesoft Technologies products allow intelligence agencies, system integrators and service providers to extract information from fixed, 2/3G mobile and packet networks. Our universal passive probes extract call content, signalling and location information for use by monitoring applications. Over 250 operators in more than 100 countries use our equipment ensuring wide protocol compatibility and seamless connection of your applications to real world systems. www.telesoft-technologies.com

Since 1994 Utimaco has been providing lawful interception systems for mobile and fixed network operators and Internet service providers. The Utimaco Data Retention Suite was introduced in response to the EU directive 2006/24/EC and at the request of telecom customers for integrated LI and DR solutions. With more than 130 installations in 60 countries, Utimaco is a leading global supplier in the LI market. For more information visit www.utimaco.com/lims
