ISS World 2011 MEA - Lead Sponsor

trovicor was founded as the VDR (Voice & Data Recording) business unit within the Siemens corporation in 1993. Since then, we have become an industry leader who provides project and turnkey intelligence solutions. These are a combination of own core development and the integration of best-in-class third party products as well as our customer-centric Care Programs. Presently, we employ some 170 experts worldwide. Our office in Munich addresses Europe, the Community of Independent States (CIS) as well as both Americas; our subsidiaries in Dubai and Islamabad cater for the Middle East and Africa; and the Kuala Lumpur office addresses Asia Pacific. Based on our vast experiences, our main business goal always has been to generate sustainable benefits for law enforcement and government agencies. Many and varied Monitoring Center solutions as well as other intelligence projects have given us an indepth experience in their requirements. Today as before, we strive to achieve the highest level of customer satisfaction. www.trovicor.com

Associate Lead Sponsors

Al Fahad Group: *The Intelligence Guardian* ; Confidentiality and integrity-of-secrecy are not “givens” in LI, these are values to be exercised and executed in perpetude. The benefit and impact of LI in forming national security strategies supersedes older intelligence gathering forms and mechanisms. These are the principles driving Al Fahad group to provide LI and other national security solutions. We have therefore been recognizing exponential growth over the last 5 years in providing national security solutions ranging from Interception, mediation, comprehensive protocol decoding including webmail and web 2.0 services; evidence processing, forensics, fraud detection, surveillance and cyber intelligence. Across our operations in the Middle East, North Africa and Europe, Our best practices and accurate assessment of intelligence needs enable us to deploy adaptive solutions, fully integrated end to end, providing Active In-Line control and applied to serve your directive.

AREA is a leading vendor of LI systems and projects. Since 1999, when it introduced its first IP based digital multichannel recorder, a broad new products portfolio and international markets were developed. MCR System, the complete voice & data Monitoring Center, is the core element which includes IP Probes and Data Analysis. Moreover, AREA develops surveillance systems, such as Vehicle Tracking and Video Monitoring. Design and delivery of large scale LI projects come from our commitment to worldwide LEAs satisfaction.

ATIS systems - with its integrated lawful interception and monitoring system Klarios® 2.0 - has been a technology leader in the industry for over 60 years. The underlying philosophy of the Klarios® solution suite is to provide fully integrated turnkey systems with a modular, flexible and scalable architecture. ATIS has a long history of success and experience – 60 years in recording technology and 15 years in the field of integrated lawful interception. Founded and headquartered in Bad Homburg, Germany, the ATIS Group has 200 employees in five countries across Europe, Asia and North America.

Cobham Surveillance :As a world-leader in its field, Cobham Surveillance provides products and integrated surveillance solutions to law enforcement, military, national security and border patrol agencies. Our key capabilities cover: Tracking, Tagging and Locating; Video; Audio; Military Integrated Solutions; COFDM IP Mesh; and CBRN Solutions.

By combining technical innovation, domain knowledge and information intelligence, we develop, integrate and manage world-class solutions to help our clients deliver critical business services more effectively and economically. We also develop solutions to strengthen national security and resilience, enabling citizens to go about their lives freely and with confidence. Detica is part of BAE Systems. www.detica.com

ELAMAN GmbH is a German based company with more than 15 years of experience in communication and security requirements for law enforcement agencies. Consequently, we have the expertise to offer solutions using state-of-the-art technology and comprehensive functions for flawless operation, training and services, e.g.: Communications Monitoring, Surveillance Equipment/Vehicles, Counter Surveillance, IT Intrusion, Training, VIP Protection.

ETI Group is an international group of innovative companies with worldwide leadership within development and production of advanced analysis monitoring solutions for all types of data and telecommunication networks. Besides research and development sites in the UK and Denmark, ETI Group has global support and service groups in the US, the UK, Denmark, Spain, the U.A.E., Singapore, and France.

Ericsson is a world-leading provider of telecommunications equipment and related services to mobile and fixed network operators globally. Over 1,000 networks in more than 175 countries utilize our network equipment and 40 percent of all mobile calls are made through our systems. We are one of the few companies worldwide that can offer end-to-end solutions for all major mobile communication standards.

Gamma Group presents its unique IT Intrusion portfolio – FinFisher - at the ISS World MEA 2011. The FinFisher IT Intrusion products contain the most comprehensive online research and infection functionality found in any other solution. The FinFisher portfolio combined with superior training at Gamma's IT Intrusion Training Institute differentiates Gamma Group as the leading company in the field of Cyber Surveillance and Counter Surveillance. For more information please contact: info@gammagroup.com

Glimmerglass Intelligent Optical Systems integrate powerful software with cutting-edge hardware to provide unmatched flexibility, performance, and cost savings for the Lawful Interception of optical networks. Communication service providers, intelligence agencies and law enforcement use Glimmerglass to selectively monitor and intercept communications and distribute optical signals to one or many locations.

]HackingTeam[

HACKING TEAM is a company totally focused on IT OFFENSIVE SECURITY intelligence solutions for LEAs and Security Agencies. Remote Control System V6 (RCS) is a premier, integrated, multi-OS platform for remotely attacking, infecting and controlling target computers and mobile phones. RCS FULLY SUPPORTS XP, Vista, 7, MacOS, iPhone, Symbian and Blackberry. It is INVISIBLE to most protection systems available in the market (e.g., systems listed in the GARTNER's Magic Quadrant For Endpoint Protection Platforms) - It is RESISTANT to system restoration technologies (e.g., DeepFreeze) - It is a PROVEN technology: it is being used by Agencies worldwide since 2003 - Target monitoring includes Skype, chat, mail, web, removable media, encrypted communications, PGP, GSM-cell GEO-tracking, GPS GEO-tracking, voice calls, etc. For more information info@hackingteam.it.

Investigative Risk Management, Inc.

IRM bridges the gap between hardware and humanity by ensuring the integration of new solutions is sustainable and effectively managed. As an established industrial security firm with a history of success within the public and private sectors, IRM works with you to ensure your people define your success – and are not defined by the resources they depend upon.

Memex
A sas COMPANY

SAS is the leader in Business Analytics software and services, and the largest independent vendor in the market. Through innovative solutions delivered within an integrated framework, SAS helps customers at more than 45,000 sites improve performance and make better, fact-based decisions, privately held since 1976, SAS continues to provide organizations with THE POWER TO KNOW®. SAS and its specialist Public Security subsidiary Memex, provide information management solutions to the Law Enforcement, National Security and Intelligence sectors. Memex solutions have enormous value in any industry where there is a need to manage and understand vast amounts of information. Deployed in some of the most challenging environments imaginable, they enable problems to be solved that would not have been possible with any other technology.

Palantir Technologies supplies intelligence, defense, law enforcement, and banking leaders with enterprise solutions for their most challenging analytic problems. Palantir's system brings together external databases, surveillance, trends and patterns, interviews, tips, biometrics, and more into one common, collaborative investigative environment.

Polaris Wireless is the global leader in providing high accuracy, software-based geo-location solutions to wireless operators and law enforcement agencies. With commercial deployments in EMEA and APAC regions, our lawful and mass location intercept solutions are ideal for tracking known/unknown targets to within 50 meters including urban and indoor areas.

Qosmos develops Network Intelligence technology (an evolution of Deep Packet Inspection), which provides real-time visibility into data as it crosses networks. The company's software development kit and hardware probes are used by Government Agencies, Law Enforcement Agencies (LEAs) and System Integrators to enhance their lawful intercept and cyber security solutions.

Semptian Technologies develops and delivers high performance hardware platforms, often customized, for applications in Lawful Interception, Deep Packet Inspection, intelligence gathering, network security and traffic surveillance and management. World class telecom carriers, governments of major countries, universities and enterprises entrust their business to Semptian. Semptian partners with major LI solution providers.

Rheinmetall Defence is one of the world's leading suppliers of systems for satellite communication reconnaissance and a long-standing partner of military organization and intelligence services. Since 1990 Rheinmetall Defence has been developing and delivering tactical and strategic monitoring systems to customers around the world.

Spectronic Systems is an independent and 100% privately owned company working exclusively with governments and government approved agencies. The Spectronic Systems activities include development and manufacturing of monitoring systems and monitoring centres handling telephony, internet/IP, fax and modem traffic for intelligence and law enforcement agencies. These solutions can act as data retention systems and/or as an intelligence platform for bulk monitoring of SMS, MMS, e-mails or other means of data communication

Headquartered in the heart of the Silicon Valley in California, SS8 is a leading worldwide provider of innovative regulatory compliant, electronic intercept and high capacity end-to-end cyber security solutions. SS8's solutions allow law enforcement and intelligence agencies to conduct lawful interception and monitoring of both circuit and packet-mode communications in accordance with local laws and standards. Since 1994, SS8 has delivered hundreds of Lawful Intercept deployments to the world's largest and most innovative carriers, national governments and law enforcement agencies.

Telesoft Technologies is committed to being a global provider of reliable and cost-effective multimedia, signaling and monitoring platforms used by the world's leading operators, OEMs and system integrators. With over 20 years of experience in SS7/signaling, media and networking we have unrivalled expertise in fixed, 2G, 3G wireless and IP networks. It is this deep understanding and experience of real-life networks, along with the close working partnerships with our customers, that sets us apart from others.

Since 1994 Utimaco has been providing lawful interception systems for mobile and fixed network operators and Internet service providers. The Utimaco Data Retention Suite was introduced in response to the EU directive 2006/24/EC and at the request of telecom customers for integrated LI and DR solutions. With more than 150 installations in 60 countries, Utimaco is a leading global supplier in the LI market. For more information visit www.utimaco.com/lims.

ZTEsec is a subsidiary company of ZTE Corporation that is a leading company in the telecommunication equipment and solution market. Even as the name symbol 'sec' coming from the word security, ZTEsec is dedicating to providing data network security surveillance and other intelligence support systems.
