How to install the release

This release can be installed only over a previous 9.3.x release.
It is still possible to install it from scratch (no previous RCS installation on the system).

9.4.0 specific instruction for upgrading form 9.3.x:

• Run the installer rcs-setup-*.exe on the backend server and answer 'yes' when asked to upgrade.
   If you have multiple shards, install the update on all the shards first and then on the master node.
• Run the installer rcs-setup-*.exe on the frontend server and answer 'yes' when asked to upgrade
• If you are using the OCR module, please reinstall it on all the shards after the upgrade.

What's new in Remote Control System 9.4

Agent (Windows)
